This is a great CD for students of the harp to learn some good simple riffs and great tonality. The first song, Hole In Her Belly, is just such a number as is the second tune Woman 'Round My Door. Kids will especially laugh at some of the lyrics but at least they are getting a good dose of classic 12 bar blues. Harmonica Slim does a lot with a few riffs. I think he plays an A-harp on every song and he concentrates on the low end but it is perfect for us relative beginners to learn how it is done. Other standouts are Bright Lights, Big City. Enjoy
