"Jus' Blue" is Barbara's 9th self produced/co-produced CD with 18 tracks either written or co-written by Ms. Blue. This exciting, challenging and fulfilling CD gives you a total look at 18 years of BB's recording career to date. There is a lot of love here, for the blues and listeners alike. From her very first recording in the year 1994 titled "Out Of The Blue", to 3 critically acclaimed CD's with The Phantom Blues Band & The Texicali Horns: 2002 Sell My Jewelry, 2004 Memphis 3rd & Beale & 2006 Love Money Can't Buy you can hear and feel the maturity of time. Then finally in 2010 Royal Blue was recorded in Memphis TN at Willie "Pops" Mitchell's Royal Studio and received World Wide acclamations. So to put the icing on this project Barbara went back to Royal Studio's to create "Jus Blue". Three glorious new tunes and a re-do of her classic "Sweet Love Blues" from her first CD "Out Of The Blue". Sit back relax and enjoy life!
