All music evolves and that includes the Blues. Here, TBelly take the blues into the 21st Century and give it a fresh, kicking lift. Great vocals from Russell Keefe and a band that is very, very tight. Great songs, great band. Highly recommended. ---mojoworkingman, itunes.apple.com

Sometimes a new band comes along and you wonder where they've been all these years. With superb rock-tinged guitar, funky piano and sleazy Blues harp, T-Belly make some fine music, but it is their vocal performance that grabs the ear and engages the spirit. Blues songs can compress deep and complex feelings into a few lines, but when they are projected with this kind of power and conviction, they can also open a door into a world of shared experience. ---allaboutbluesmusic.com
