The album has totally convinced me. Rough, hard and dirty backstreet Blues that no one else can play like the Mamas Boys. Get a unique taste and listen to my favorite starter of this album : The Dirge. A real blast of a extremely rude gutbuster with Smokehouse tickling wonderful notes out of his 6 string, some real crooked notes! Johnny blowing his complete lung contents into the harp. The rhythm mashinery of Jimbo and Mike supplys a solid ground. You need Beautiful Chaos because without music life would be a mistake. Visit the shows and see Johnny crawling on his knees to massacre his harp, Smokehouse torture his six strings to highest levels, Mike and Jimmy supply the rolling thunder of a solid ground. ---MuddyLives, cdbaby.com
