Valerie June and her top flight band stopped by Los Angeles' legendary public radio station KCRW on June 7th, 2017, for a live session on the their flagship Morning Becomes Eclectic program. VALERIE JUNE – LIVE AT KCRW, featuring eight songs from her critically acclaimed album *The Order of Time* (released earlier this year) is available now at all digital and streaming outlets. The recording beautifully captures the mysterious and magical live energy that has made June's performances such a unique and compelling experience. Stream the live session via Spotify, Apple Music, and GooglePlay now.

Unquestionably one of the year's best reviewed albums, Rolling Stone and Paste included *The Order of Time* on their recent "Best Albums of 2017 So Far" lists. NPR called the album "a marvel of mindfulness," The Guardian raved, "bursting with standouts," and MOJO declared the album "beautiful and tempting." Even Bob Dylan singled June out in the press as a favorite new artist to watch. ---Troy Michael, innocentwords.com
