He was born Booker T. Washington White (Bukka became his name due to a mistake in one of his recording sessions many years later) in 1909, and had a career lasting until 1977. His first recording session was in 1930; he didn't make much of an impression since he did not record anything else until 1937. This CD features his early recordings, made in 1930, 1937, 1939, and 1940.
