I was always under the impression that I do not play no Rock and Roll was the only time Fred had recorded with a band, but doing some reading this morning it would seem that Fred McDowell and His Blues Boys also featured a band and preceded it by a couple of months. As it doesn't seem to be in print, or even to have ever made it out on CD, I wondered whether anyone knew if the material had been re-released under a different title? As a big fan of Fred, and especially of I do not play no rock and roll, I'd very much like to hear it. ---
