Rick Derringer plays the blues!!!! There is not one bad track on this album. I have played many of these songs at various venues and the response is always positive. Rick rocks the blues with a vengeance and a style akin to Stevie Ray Vaughan. I am constantly asked where i dug up 'that unknown stevie ray song'. When i tell them who it is, they make it a point to actually write down the name of the album so they can purchase it and want to hear more. What better praise for an album than to have people wanting to hear it and buy it!!!! If you haven't got this album in your blues(blues/rock) collection, it ain't complete . . . If you have heard it and don't have it yet, "all you want to do is cry". ---amazon.com
