G-Men Bootleg Series Vol.1 was Rory Gallagher's last official release before his untimely death in 1995.

This album was Gallagher's attempt to bootleg the bootleggers; released in 1992 it was a no-frills exercise with little production work. The three discs were recorded throughout the '70s. The third CD is called "Bullfrog Interlude", featuring a gig for London radio to promote the then forthcoming album, "Blueprint" from February 1973.
