Hidden Charms is a Superb Blues Album!...I can't figure-out why so many (so-called) Blues Lovers' would EVEN rate this fabulous Music as anything short of utterly ESSENTIAL?!...You'd have to be deaf and dumb NOT to realize what an Awesome and Brilliant collection of THEE Master this LP is!!!...IF you L.O.V.E. the BLUES then I Highly Recommend this Jewell for your Treasure Chest and/or collection. I like every song on it. Some more than others, but, there isn't a 'bad' song on it. Excellent Guitar, Cash McCall, as well as Stunning Harp by Sugar Blue! (Some Girls LP, (Miss- You). Not to mention: Lafayette Leake on Piano! Those who rate this LP anything short of Masterful are children in their understanding of the Blues at their F.I.N.E.S.T. ... Period! I couldn't Live without this Music in my Collection. ---Steven Dayvis, amazon.com
