I've been waiting for this CD release for a long time. Produced by Lieber and Stoller the disc is a
who's who of great players from rock, jazz and blues... with luminaries such James Booker,
Zoot Sims, Wilton Felder, Joe Sample, Jim Gordon, Dean Parks, Larry Carlton and many more.
Terrific arrangements, great production and of course some of the best vocal tracks that T-Bone
Walker has recorded. This disc should have been released years ago and should be awarded a
Grammy as one of the best Blues/ R&B reissues. --- D. Sidney, amazon.com
