## Ed Pinsent - Krautrock Kompendium

From the introduction: "This is a compilation of all written reviews of Krautrock records that have appeared in the pages of The Sound Projector Music Magazine to date. It includes music that has been variously labelled as Krautrock, Kosmische, German electronic music, or German progressive rock... The reason for doing the Krautrock Kompendium is simply to make available previously-published extracts from the magazine. We decided to do it as an 'ebook', an online publication which can be downloaded from the website for free. At the same time, digital technology has made it easier to deliver photography and reproduction of entire LP sleeves. The visual element is an exceptionally important part of Krautrock history; the sleeve art is beautiful, and packed with significance. For these reasons, we decided to render the KK in full colour. Thus, the layouts, cover art and pictures have been assembled especially for this digital edition..."
