Ballet Adagios is a double-disc collection of dances and excerpts from ballets that generally have slow tempos and lyrical expressions as common features. Taken from Decca's backlist of recordings made between 1960 and 1993, the selections represent the most famous ballet composers, necessarily featuring the most important of all -- Léo Delibes, Pyotr Il'yich Tchaikovsky, Igor Stravinsky, and Sergey Prokofiev -- but also including composers whose operatic and instrumental music has significantly contributed to the dance repertoire, such as Jules Massenet, Camille Saint-Saëns, Aram Khachaturian, Charles Gounod, and Johann Strauss II, among others. The performances by the world's leading orchestras are conducted by such prominent maestros as Vladimir Ashkenazy, Richard Bonyngé, Antal Dorati, Charles Dutoit, and David Zinman, and the atmosphere created by these musicians is appropriately warm and romantic. Because recording technology changed dramatically over the years spanning these performances, the sound is a little variable in tone and background ambience, but all are quite clear and noise-free, and any traces of analog tape hiss are slight on the ADD tracks.
