AEVEA label is proud to introduce Trio Rodin's first CD with a new version of the Granados' Piano Trio based on the manuscript found at the "Museu de la Musica de Barcelona" (instead of the commonly played edition, UME). Besides, the CD includes the world's first recording of Granados' *Trova*, an arrangement by the composer himself of his most famous chamber orchestra piece "Elisenda".

The sonata for violin and piano is another of the surprises offered to the listeners here: "We knew about the existence of the manuscripts of a second, third and fourth movements; but no one has dusted them off and shown them to an audience till now. A complete second movement, and two other unfinished, are presented here as a première of what it is, without any doubt, one of his greatest chamber music works." ---Trio Rodin, onclassical.com
