The operas of Nicola Vaccaj, renowned as a vocal teacher and still known today for his *Metodo di Canto*, employ a similar bel canto style to that of his rival Bellini. Based on a tragedy by Friedrich Schiller, the powerfully dramatic plot of *La sposa di Messina* deals with the inescapable and, in this case, destructive nature of destiny. Vaccaj's own 1839 premiere was dogged by bad luck, and the subject proved too controversial for Venetian audiences despite its numerous superb set pieces. After one complete and one partial performance, it was not staged again until the 2009 revival heard on this live recording. Antonino Fogliani's many conducting engagements have taken him to leading international opera houses and concert halls. For

Italian composer Nicola Vaccaj (also spelled Vaccai) is known today primarily for vocal exercises, but in his own time he was a successful as well as controversial contemporary of Bellini. *La sposa di Messina* here receives its first recording and has been performed only once since its disastrous premiere in 1839, when it was withdrawn midway through the second performance. It's an ambitious work, adapted from Schiller's play *Die Braut von Messina* (The Bride of Messina). The play was Schiller's best attempt to emulate Sophocles, with a pair of brothers who fall in love with the same woman, unaware that she is their sister and that, moreover, it has been prophesied that she will cause their destruction. There are tough soprano arias that British soprano Jessica Pratt, in the title role of Isabella, handles very well indeed. A chorus of courtiers has a varied, expressive role. And Vaccaj has a real feel for dramatic scenes such as Isabella's harp-haunted awakening from the dead faint into which she falls as the plot approaches its denouement (CD 2, track 3). A worthwhile operatic revival, but Naxos makes you go online for the otherwise unavailable libretto by Jacopo Cagianca. ---James Manheim, Rovi
