A dazzling display of violinistic fireworks tempered with heart and soul. Every note is played with meaning and conviction. The myriad tone colors Heifetz paints with his bow are unmatched by any other violinist whose recordings of these pieces I've heard. The searing intensity and heartfelt passion of the Chausson Poeme will leave you emotionally exhausted! The performance of Zigeunerweisen has all the elan and sparkle one could hope for and the Havanaise is played with arresting beauty of tone and perfection of technique. The longest work on this CD, Lalo's Symphonie Espagnole, is played from beginning to end with Spanish flare and fire and never sounds repetitive or insipid. The four movements recorded here possess charm and vigor in every phrase. The music flows effortlessly - one knows one is in the presence of genius. One of the very best CD's of violin music available! --- "rjm26", amazon.com
