Andante largo* 7:48 22. 6 *Short Pieces, Op. 5: No. 6. -* 1:22
Norbert Kraft – guitar

The Catalan composer and guitarist Fernando Sor is chiefly known for his many guitar compositions. Although originally opposed to the Napoleonic invasion of Spain, he later accepted a position under the French government. He was, in consequence, subsequently obliged to seek refuge abroad (London and Paris) but established himself as a successful performer, teacher and composer.

Sor published a quantity of music for guitar, some of it pedagogical in purpose and some of it for concert performance. His *Méthode pour la guitarre*, published in 1830, is among the most important books on guitar technique. ---naxos.com
