After his specially assembled "Birdland Dreamband" broke up, trumpeter Maynard Ferguson put together a regular big band that would exist for the next decade. This Mercury LP features his 13-piece unit at a time that it featured trombonist Jimmy Cleveland, Willie Maiden on tenor, altoists Jimmy Ford and Anthony Ortega, pianist Bobby Timmons and singer Irene Kral; the latter is heard on four of the dozen standards that make up the album. The arrangements are by Maiden, Al Cohn, Bill Holman and Ernie Wilkins and they show off the talented orchestra and its memorable leader quite well. ---Scott Yanow, Rovi
