Jazz wasn't just born in New Orleans – it grew up here. Every night of the week, the streets and clubs of the Big Easy come to life with what's been called "America's only original art form." Like New Orleans itself, jazz is constantly changing, forever evolving into something new and exciting. Jazz is alive. And it will make you feel that way, too. Great jazz can be heard all over this town – in the French Quarter, the Marigny, the Treme, uptown on Oak Street and on St. Claude Avenue. From traditional jazz to acid jazz, there's something for every ear, every day of the week. Come feel it. ---neworleans.com
