All the notes fall naturally into place. Never garrulous or merely exhibicionistic, it is a jazz concert of the highest calibre. Each phrase is swinging and is full of drive and feeling. In brief, that is how you can describe the music of Jarek smietana, one of the most outstanding Polish jazz musicians. He has created his own music style and individual sound, always personal yet constantly communicative. His first priority is the highest possible artistic level. --Leszek Kotarski, Jazz Forum
