Betty Wright was just a school girl when her debut album was released by Henry Stone's Florida-based Alston label. Her second album *I Love The Way You Love* debuted four years later, when she was a young woman of 19. Alston was distributed by R&B powerhouse Atlantic, which helped the album's hit single "Clean Up Woman" (co-written by Clarence Reid AKA Blowfly) reach #6 on the pop charts. This essential soul reissue has detailed liner notes and original artwork. ---amazon.com
