Adriana's first album, called Enguiço, was released in 1990 and consisted mostly of covers of well known MPB (Brazilian pop) songs, part of the repertoire she used to perform as a singer in restaurants and bars in Porto Alegre. It included only one original composition, the title track. It spawned her first hit, a cover of Caetano Veloso's Naquela Estação, which became successful thanks to it being included in the soundtrack of the primetime soap Rainha da Sucata, one of the most watched in history of Brazilian television.
