Mambo is a Latin dance of Cuban origin that corresponds to mambo music. Mambo music was invented during the 1930s in Havana by Cachao and his contemporaries and made popular around the world by Perez Prado and Beny Moré. Mambo music developed from Danzón and was heavily influenced by the Jazz musicians that the Italian-American gangsters, who controlled Havana's casinos, brought to entertain their American customers.

In the late 1940s, Perez Prado came up with the dance for the mambo music and became the first person to market his music as "mambo". After Havana, Prado moved his music to Mexico, where his music and the dance was adopted. The original mambo dance was characterized by freedom and complicated foot-steps. Some Mexican entertainers became well known dancers like Tongolele, Adalberto Martínez, Rosa Carmina, Tin Tan and Lilia Prado. Most of these accompanied Prado in live presentations or were seen in Mexican films.

The original form of the dance and music are alive and well in Cuba and in taught in dance studios in Mexico City. An example of authentic Mambo dance can be seen in the film 'The Motorcycle Diaries'. Professional dance teachers in the US saw this approach to dancing as "extreme," "undisciplined," and thus, deemed it necessary to standardize the dance to present it as a sell-able commodity for the social or ballroom market The modern dance from New York was popularized in the 70s by Eddie Torres and his contemporaries who were 1st or 2nd generation Puerto Rican immigrants. This style is not danced to Mambo music, for which it is

poorly suited, but instead to Salsa music.

Mambo – taniec towarzyski pochodzący z Kuby, w metrum parzystym. Ukształtował się w latach 30. XX wieku. To fuzja swingu i muzyki kubańskiej stworzyła rytm, który był początkiem mambo. Szczyty popularności tego tańca to lata 40. oraz część lat 50. ubiegłego stulecia. Potem cha-cha wyparła ten taniec z salonów i stracił on popularność.

Obecnie mambo znowu zyskuje sobie zwolenników dzięki takim filmom, jak Dirty Dancing czy Dirty Dancing 2 (Havana Nights). Aktualnie pod nazwą "mambo" rozumie się przede wszystkim salsę w stylu NewYork (tzw. "Mambo on2"). Mambo jest podobne do samby w krokach i akcji. Jest jednak bardziej "miękkie".
