Wearing a hoodie and a boy-next-door smile on his face, the Enrique Iglesias on the cover of 95/08 looks nothing like the come-hither Lothario who favored form-fitting shirts during the bulk of his Latin crossover years. drawn from Iglesias' '90s catalog and only a few are translated versions of his pop material is a testament to where the singer's forte lies. For that reason, it's a little bewildering that 95/08 is not quite the one-stop source for all of his Latin pop hits. A handful of significant ones are missing, specifically "No Llores por Mí," "Trapequista," "Miente," "Esperanza," and "Para Qué La Vida" -- incidentally, all five were included in a separate deluxe edition of the same collection. As it stands, 95/08 is a good and ample collection, albeit not an entirely conclusive hits retrospective from one of Latin music's biggest idols. ---Andree Farias, Rovi
