Flamenco album with the great guitar of Paco de Lucia with his brother Ramon de Algeciras and also singing his brother Pepe de Lucía. This CD is a reissue of the original 1971 LP. The year 1971 was an interesting year for Paco, because, by the continuity of their work alone , being only 24 years, he would also open more roads publishing a flamenco-inspired LP and adorning his touch with additional ingredients as the singing and dancing (tap dance). This CD offer flamenco classics styles like soleá, bulería, alegrías, taranto, seguirilla, tango or farruca.
