Isabelle Boulay - États d'Amour (1998)

1. *Je t'oublierai, je t'oublierai* 2. *Etat d'amour* 3. *Le saule* 4. *L'heroine de cette histoire*
5. *La lune* 6. *N'oubliez jamais* 7. *L'amour dans l'ame* 8. *Les yeux au ciel* 9. *T'es pas mon fils*
10. *C'était l'hivers* 11. *Le banc des delaissees*

Boulay's natural talents as a vocalist shine on "Etats d'Amour" through her emotive rendering of some challenging but beautiful songs. French speakers will appreciate the sensitivity and depth of lyrics to songs such as "Je t'oublierai, je t'oublierai" and the title track, but all can appreciate an album with varied but skillfully portrayed content. The album continues to impress after almost exhaustive playing, Boulay and her musicians going from strength to strength. The core content depends on ballads and MOR pop, making this an accessible album for many mainstream music lovers. ---amazon.com
