Born in Lisbon on October 4th 1974, Mafalda Arnauth had a passion for music since she was a little girl but had never really aspired to be an artist. The entertainment world finally won her over, however, when she was still at university, completing her 5th year of Veterinary Studies. Purely by chance, Mafalda Arnauth suddenly found herself transported into the world of the stage, recitals, and the fado music clubs, where she grew artistically with the applause, the public's appreciation, and the discovery of herself through song.

With the characteristic freshness of a youthful voice that had hitherto been unknown in the world of fado, she captivated listeners early on with her spontaneity and the memories awakened by her interpretations of old hits. In time her flame grew until it was a blazing fire, bringing her own natural style, personality, and original compositions to the fado music she makes and revealing herself in a more characteristic and genuine manner. --- mafaldaarnauth.com
