Usually, American Idol also-rans deliver their post-show album immediately, because if they don't, they run the risk of being forgotten. Not Kimberly Caldwell. She took a whopping seven years to deliver her debut, *Without Regret*, staying in the pop culture spotlight for that three-quarters of a decade by appearing on TV and modeling campaigns, spending so much time at the fringes of the mass-market mainstream that it became easy to forget precisely why she was famous. *Without Regret* is designed as a reminder -- a full-blown, air-brushed, impeccably manicured collection of power ballads and updated arena rock designed to showcase Caldwell's strut. Frequently, all these machinations just wind up playing like a straitjacketed, tempered-down Kelly Clarkson, retaining the oversized production but lacking the gargantuan hooks or personality, for that matter. Caldwell is not a bad singer -- she's nicely throaty and gamely throws herself into all the songs, including pro forma Diane Warren and rather horrible Chad Kroeger -- but she's so eager to play by the rules that she never winds up injecting these purely professional tunes with much firepower. Then again, *Without Regret* is designed as pure product -- and on that level it does succeed, since it's pleasurable background music that never calls attention to itself. But that in itself poses a question: why wait this long to deliver a record that could have been released at any point in the last seven years to a similar amount of attention? ---Stephen Thomas Erlewine, AllMusic Review
