The Pepper Pots are back with their 4th full length effort! Their second now on Megalith Records. ""Train To Your Lover"" has brought them front and center in the world of soul music. With each release they have slowly moved away from the soul / ska blend that they established early on. The band has been honing their soul skills and have embraced them full force on this album. Boasting a large musical arsenal and their signature female trio singers, The Pepper Pots have mastered the ability to MAKE soul music. They are NOT copying it, they are CREATING it! --- Editorial Reviews
