Though not an inspired effort, this double-live album does have its moments. Lofgren's muscular guitar playing is particularly evident on tracks such as "Keith Don't Go" (an ode to Rolling Stone Keith Richards) and "Cry Tough." Lofgren has long been underrated as a guitar player and songwriter, and although this album does not have the dynamic energy that some of his live shows of the '70s had, it does catch the former E Street guitarist playing some fine lead guitar. ---Steve Kurutz, AllMusic Review
