Neil Young - Journey Through the Past (1972)

1. *For What It's Worth/mr Soul* 2. *Rock & Roll Woman* 3. *Find The Cost Of Freedom* 4. *Ohio* 5. *Southern Man* 6. *Are You Ready For The Country ?* 7. *Let Me Call You Sweetheart* 8. *Alabama* 9. *Words* 10. *Relativity Invitation* 11. *Handel's Messiah* 12. *King Of Kings* 13. *Soldier* 14. *Let's Go Away For A Chile* Neil Young - Guitar, Harmonica, Primary Artist, Vocals Buffalo Springfield - Guest Artist

Most soundtrack albums don't really contain the soundtracks to movies as they sound and as they are edited for the screen -- a song heard in a snippet on a car radio in the film, for example, will be presented in its entirety and with good sound on the album. But the soundtrack to Neil Young's fantasy/documentary *Journey Through the Past* does contain an audio record of what's onscreen: songs are cut off or fade out, to be replaced by fragments of something else, and the sound is not improved. So, *Journey Through the Past* doesn't work as well apart from the film as most soundtracks do. But the main problem with it is the same one that the film suffers: it doesn't make much sense. A mixture of TV footage of the Springfield, live footage of Crosby, Stills, Nash & Young, rehearsal footage of the Harvest sessions, and news footage, it doesn't coalesce into a coherent movie or a coherent record; if some of this material were used as part of a box set, it would have historical value and be interesting to fans, but in this context it was baffling. --- William Ruhlmann, allmusic.com
