For three years ToRmenTeR has been honing their craft to step out of the shadows set forth by their contemporaries. The band has vigorously done everything in their power to try and burn the sound of their musical attack into every metal maniac everywhere. The band has done everything in their power to meet their goal set forth from sharing the stage with legendary trail blazers like Exodus, Destruction, Obituary, and D.R.I., or just simply interacting with their fans and ensuring them a good friendly violent time at every ToRmenTeR show. --myspace
