Digitally remastered and expanded edition of the 1984 debut album by this band comprised of former Yardbirds members Chris Dreja, Paul Samwell-Smith and Jim McCarty, who were joined by former Medicine Head and British Lions guitarist and vocalist John Fiddler. This debut album featured special guests Jeff Beck and Rory Gallagher, along with harmonica player Mark Feltham and keyboard players Max Middleton and Geraint Watkins. Features two bonus tracks: 'X-Tracks' and 'Nine Lives'.

It's unfortunate that this group was missed by the general public. The surviving members of the original YARDBIRDS regroup with a little help from John Fiddler on lead vocals and guest guitar spots from Ray Majors, Rory Gallagher, and old band make Jeff Beck for an album a great songs. The first time I heard the haunting single "Back Where I Started" I was hooked. After acquiring the album I was stunned to learn that it was in fact the Yardbirds (minus Keith Relf who had unfortunately passed tragically).

Having disbanded in 1968, this legendary English band was back with fresh tans and strong songs. In fact, this album was one of the strongest efforts of the 80's. --- tehparadox.com
