Misty Mist is an unnecessary 21-minute collection of 11 early Marc Bolan tracks recorded in 1967 or 1968, all of which can be found on the album *The Beginning of Doves* alongside the nine other songs these are intended to be packaged with. Castle Records' 2002 reissue of *The Beginning of Doves* adds 17 bonus tracks to the previous release (a total of 26 more tracks than those which appear here), making it the quintessential edition. --- Gregory McIntosh, allmusic.com
