Jupiter Falls are a 5-piece hard rock band from Leeds, England. Formed in July 2013. initial steps were taken when James contacted Deano via youtube after seeing his Youtube covers channel. Song ideas were thrown back and forth, and the decision was made to take the project to the next level and for a full band to be formed. Lewington was bought into the equation, with the later addition of Daniels, and Jupiter Falls was born.

The chemistry of this great musical bond is the “Revolution” Album, which has been recorded by the band and Produced by the Legendary Producer Roy Z who needs no introduction. Roy Z is a master of his work, having worked with bands such as Judas Priest, Yngwie Malmsteen, Bruce Dickinson, Rob Halford to name just a few.

With shows completed throughout france and all corners of the united kingdom, Jupiter falls' journey is well under way and big things are in the pipeline for these guys who love nothing more than the band they're in.
