Guitar Slingers are a 4 piece Psychobilly/Rockabilly Surf band from UK/France, founded by Doyle (guitarist of Klingonz and Demented Are Go!).

The Guitar Slingers project started in the mid 1990s and with help from a lot of friends Doyle put together his debut album "One Man Freakshow" It received 5/5 from Big cheese Mag and 5***** from Rockabilly Mag USA. It was 13 original tracks writtin by himself & Strangy, and a lot of help from top bass player and friend Fantomas! He still didnt have a band together just the tracks put down from my studio so he called in help from guitar assassian Jean Mi-hell, Gaybaul on drums! and together with Fantomas on bass they had the Guitar Slingers line up for gigs.

During this time the 2nd album was recorded "Six String Bandit" 13 tracks of mostly cover songs and more guests on it than you can shake a stick at receiving 4/5 in the mighty Big Cheese mag reviewed by Simon Nott, they done a short Finnish tour and then an open air festival in Spain. They had a slight lineup change as Fantomas moved to USA so Karl stood in to do a short German tour and Simon Farrell for the French tour supporting the famous Sanserveno. ---last.fm
