Little Richard's 1957 debut launched the career of a foundational figure in rock music, and featured some of the artist's best-loved hits, including Long Tall Sally, Ready Teddy, Jenny Jenny and Tutti-Frutti, a song which many consider to mark the birth of rock n roll. To celebrate the 60th anniversary of this classic record, Craft Recordings will reissue a deluxe, 2-CD edition, which includes a slew of demos, outtakes and previously unreleased tracks, as well as new liner notes by GRAMMY®-nominated music editor and journalist Chris Morris. --- Editorial Reviews, amazon.com

Eight of the 22 tracks found on Here's Little Richard (60th Anniversary Deluxe Edition)'s are unreleased, including never-before-heard takes on "Ready Teddy," "Rip It Up" and "Slippin' and Slidin'" from the original recording sessions.

One of the standouts is an electrifying alternate take of "Can't Believe You Wanna Leave," a deep-album cut that eventually came out as the B side to "Keep A-Knockin'." The previously unreleased version, premiering here, finds Richard overpowering his vocal mic (which is probably why it wasn't selected for the album version) but it's so raw and unwieldy when compared to the (only slightly more) subdued LP cut that it's a bonafide lost rock & roll gem.

Here's Little Richard placed Number 50 on Rolling Stone's list of the 500 Greatest Albums of All Time. ---Daniel Kreps, rollingstone.com
