Go For Broke is killer...blues rock at it's best. BB's solos are as tasty as it gets. His playing has elements of the best of SRV and Hendrix but with his own original twist added in. Add to that a great production and BB's blues soaked vocals and Go For Broke is a definite winner. There isn't a weak song in the bunch and they're all self penned originals, not covers you've heard a million times. Highly recommended. ---Steve, cdbaby.com
