What started out as an acoustic Blues duo 10 years ago, has flourished into a five piece, urban electric Blues band. Influenced by older and newer Blues musicians, 145th Street has developed its own unmistakable feeling for and musical expression of the Blues. On top of a solid, spirited rhythm section, 145th Street lays down its passionate vocals and unique blending of harp/sax/guitar lines and interplay. Very definitely a signature sound!

Of the ten powerful tunes on the CD, nine of them are exciting originals. The remaining cover is completely arranged to make it sound like a new tune. And every tune has a story. May you have a very enjoyable listening experience! ---cdbaby.com
