Glitterhouse present the live recording of a magic night -- the Dutch/Belgian chanteuse Chantal Acda in a duo-setting with Grammy award winning guitarist extraordinaire Bill Frisell. Captured in superb sound quality. Chantal Acda on the recording: "When I wrote the songs of my record, I dreamt to hear Bill's sounds on it. I thought this feeling would go away but it never did. So I decided to contact him to see if he would work with me and put the last pieces of the puzzle together on this record (Bounce Back, 2017). He liked the music so I flew to Seattle to record his wonderful guitar playing on the songs. Meeting him felt like coming home. And this connection was still so fresh in my memory when I arrived back to Belgium. We kept in touch by writing each other and sometimes he drew me funny faces. We were invited to play at the wonderful Jazz Middelheim festival and finally ended up on stage together. In the dressing room we quickly went through the songs but we kept all surprises for the stage. It was a wonderful experience for me. One of the highlights of my musical career. It wasn't meant to be recorded but it was. So listening back to these recordings we thought it would be nice to be able to share this with the people who were there but also the people who missed it and are curious to hear what happened. I truly hope you will enjoy these moments. These moments that will always stick with me." ---forcedexposure.com
