I bought this to replace the same CD which I had lost as well as the cassette. (Yeah, what is a cassette?) I can only say that I have heard and taught the Handel Sonatas many times. But I was lucky enough to be in a masterclass with this man, see him perform live on several occasions and hear his recordings. My high school teacher used to swap cigarettes for lessons during the occupation of France. Truly a different world. It is worth whatever you need to pay to hear this. It is a type of playing that we do not hear much of in these days where flutes have to play loud to get out over an orchestra. Everything on this CD is a joy. It is a whole different style of playing which is disappearing so listen and grab on to what you liked about him while his recordings are still available. ---MB, amazon.com
