Rodrigo - Concierto de Aranjuez (Carlos Bonell) [2012]

1. *Allegro con spirito* 2. *Adagio* 3. *Allegro gentile* (Guitar) Montreal Symphony Orchestra
Charles Dutoit (conductor)

Rodrigo's Concierto de Aranjuez is performed and recorded more than all the other guitar concertos put together, and the outer movements are full of Spanish warmth and color, framing a central adagio that builds in intensity like a poignant prayer. This recording is justly famous for "Bonell's imaginative account of the solo part" and "an exceptionally clear, atmospheric recording". ---hbdirect.com
